# PRINCE2® PASSPORT

The PRINCE2® Manual.

PRINCE2® is a project management methodology created and endorsed by the UK Government. Originally created under the Office of Government Commerce, this is now under the AXELOS brand, a joint venture organisation formed by Capita and the UK Government.

The PRINCE2® Manual or to give it its' correct title 'Managing Successful Projects with PRINCE2®' is available from many good bookshops, your e-learning provider or even good reference and lending libraries.

It is often stated that the one constant in the modern world is change. Whether that change is driven from a strategic perspective, forms part of a programme of transformational change, or is in response to an operational imperative, the delivery mechanism for change remains the same, and that is project management.

This latest version of the PRINCE2® method has been designed to place more emphasis on the principles that underpin successful project management, and to provide clear guidance on how to apply these principles to the organizational context within which projects are operating. As such, it is an essential manual for anyone with an interest in managing projects more successfully.

The challenge that faces all organizations, whether they be public or private sector, large or small, is to deliver change through managing projects successfully and consistently. This is where the PRINCE2 project management method adds real value, as the globally recognized standard for delivering successful projects.
